Inspiring Homeowners for Generations

Expanding your living area outdoors
is like adding a room to your
home without the full cost of indoor
construction. Outdoor kitchens
and living spaces create an amazing
space to host family and friends,
Outdoor living areas are also
highly desirable in the real estate
market, potentially increasing
the resale value of homes. Most of the
products in this catalog are in stock.
Please contact your Bella Sales Rep
for the most current information on
these products.

OUTDOOR LIVING
DIGITAL CATALOG

Porcelain anti-slip outdoor pavers offer a durable, low-maintenance solution, improve safety and aesthetics. They resist wear from extreme weather, and their anti-slip surface ensures secure footing in wet conditions, making them ideal for patios, walkways, and pool areas.

Natural stone is an excellent choice due to its durability, slip resistance, and timeless beauty. Popular options include slate for its rich texture and natural variation, and limestone for its elegant look and heat resistance.

Concrete tiles are strong and cost-effective, perfect for heavy-traffic areas. They can be molded into various shapes and colors, offering design flexibility, and are a sustainable, recyclable option.

Reclaimed bricks are eco-friendly being salvaged from old buildings, and they add character and sustainability to a project. No two reclaimed bricks are the same, offering a weathered, rustic appearance.

Porcelain slabs for outdoor countertops are durable, elegant, weather-resistant, and low-maintenance making them ideal for all climates. They resist stains, scratches, and UV rays and offer a sleek, modern aesthetic with easy cleaning. Porcelain countertops pair perfectly with InvisaCook to create the perfect indoor and or outdoor kitchen.
