ARTEZA

Variation, Usage & Technical Information

Variation

Arteza tiles are made entirely by hand in Morocco and each tile will be different from the next. Please expect the following characteristics which are inherent in authentic handmade tiles from Morocco.

- Chips off the surface of the glaze exposing the clay beneath
- Imperfections on the tile face
- Divots and marks in the surface of the tile
- Glazed over chips on the tile edges

Variation between samples and tiles received is possible, as handmade techniques of glazing make shade and color variation an inherent part of the product. Samples received before shipments should be considered indicative of color only. Driftwood Design Lab will not honor any claims made for these characteristics listed above if claimed as defects.

<p>*Residential Exterior uses in climates that do not experience freeze-thaw conditions.</p> <p>**If used for flooring, expect wear and tear on the tiles, which may include glaze wearing off the edges, or chipping off the surface, as well as cracks, or complete failure of occasional tiles.</p> <p>***See install instructions for specific method for shower wall installation.</p>	<p>Light Residential - Flooring areas subject to soft-soled footwear or normal footwear traffic without abrasive soil/dirt, such as bathrooms and bedrooms without exterior access and minimal pivot points.</p> <p>Residential - Flooring areas subject to soft-soled or normal footwear traffic that may contain amounts of abrasive soil/dirt, such as living rooms, dining rooms or other rooms with exterior access.</p>	
Pools, Spas & Fountains		
Arteza tiles do not meet US standards for use in pools, spas or other areas where it will be regularly submerged in water, and we do not recommend Arteza for these applications.		
Important Sealing Information		
Natural Terracotta tiles must be sealed before grouting. Occasional re-sealing may be needed, depending on where tile is installed.
